The difference between rebel barbarism and northern humanity and civilization is as palpable in these instances as in hundreds of others during the war. It is evident that there is a great difference between the people of the south and those of the north and west. What causes this wide spread dissimilarily, when both sections were orgin-

Presently the report of the boat howitzer was heard, the river. Previous to leaving the locality the tug had opened upon the enemy with her howitzer and driven from the river bank the enemy's pickets. Col. Fitch then ordered his men back upon the boat and waited till the morning of the 17th. ..

About 6 o'clock the Mound City, the lag ship, the Musselman and New National with the troops, then the St. Louis, Lexington and Conestoga ran up until they came within sight of the bluffs in the bend, half a mile ahead, and the Mound City opened. fire. The troops were landed and the other gunboats passed on slowly up the river until within range of the batteries when they poured in a destructive fire upon the rebels, to which they made no reply. In the meantime Col. Fitch had landed his troops, about 500 men, formed them into line and started them forward on the double quick, intending to attack the fort in the rear. Soon in in that direction was heard the volleys of musketry, sharp and continuous, indicating that warm work was in progress. Presently Col. Fitch who led his regiment :

Preserving Fruit.

The Agriculturist, for June, has a good article upon preserving fruits, in which it speaks of putting up fruit in jars as fol-

During the past year we have kept saveral bushels of fruit of different kinds, al-ways in good condition, and the portion now unused is almost as fresh and delicions as when first packed. For keeping we have all sorts of glass bottles and jars, holding from a pint to two quarts each—including several of the patent jars with caps of them in their efforts to destroy it? The fruit is heated with the syrup just long enough to scald it through. Some prefer to use less sweetening and add more when the fruit is to be used. Others use no sugar; they think the fruit keeps just as well; and preserves its aroma better without any sugar. We prefer to use all the sugar that is to be needed, believing that the fruit will keep more carried and it is then always. keep more certainly, and it is then always ready to pour out upon the table. The fruit to be preserved should always be in good condition—ripe but not over ripe, nor containing any decayed portions. The Way Political Generals Conduct the Way-its Consequencess- The Point Clearly made by the Louisville Journal and Mashville Union,

There seems to be a strong conviction at Washington and almost everywhere else hat a portion and probably the most valaable portion of Beauregard's army recently.

We shouldn't be at all surprised to learn that at least thirty or thirty five thousand of Beauregard's men have joined the Richmond army. Whether the rebels have or have not, as is generally stated, two hundred thousand men in bichmond, we consider very doubtfut. The rebels have uniformly been successful in setting on foot exaggerated accounts of their numbers at all points. But we deem it likely that they have gathered, or are gathering their whole available strength into one grand army, with the intention to stake everything upon a single conflict in front of their capital, leaving in the meanwhile all the rest of their confederacy open to the advance of federal troops. And this, if it is their policy, is no doubt a wise one, for everybody knows that our troops, go where they may, will be guilty of no interference with south. ern property, or southern rights of any kind. For the sake of a trememdous victory at Richmond, followed as it would be by a long train of highly important results, the rebels could well afford to have our armies occupy nearly the whole of the area of their confederacy for twelve months. - Lou-

speedily repressed and crushed out, to the statements of the above paragraph, and particularly to the passage which we have italicised. It is no doubt true, every word of it, and should arouse us to a most serious consideration of the policy which our generals have been pursuing. The Jour-nal declares, and with truth, that every officer and soldier in the rebel army feels that his "rights of EVERY KIND" will not be interfered with in any way by our forces, and feeling assured of this he readily leaves his property, his crops, his horses, his cat-tle and slaves to the protection of the federal government in one quarter, while he goes off with gun on shoulder to strike a deathblow to it in another. Was ever such monstrous absurdity committed by any government before as to protect rebels and aid The administration owes to the nation and PREFARING THE FRUIT.—Our method is, to posterity to let its blows fall so thickly to put the fruit in a preserving kettle of and heavily on the rebels and their proper-

Awful Disaster to the Mound City. CAIRO, June 21.

Special to Chicago Tribune.—This community were electrified this morning by the

report brought by the naval dispatch bost of the terrible calamity on Whiteriver, and that of the most spirited and gallant action in Arkanass, which has covered both army and navy with imperiabable renown. On the 13th the gunboats Mound City, St. Louis and Lexington, left Memphis for the mouth of White river. On the morning of the 14th Col. Fitch, with the captured transports. ed transports, the new national steamers Jacob Musselman and White Cloud, with stores and provisions, followed convoyed by

near the little town of St. Charles, situated upon a high bluff near a hundred miles from the mouth of the river. It was known that this point was fortified. Just below this point the fleet came to anchor. Col. Fitch sent out a company of scouts on each side of the river to reconnoitre. A tug had gone up ahead on some errand. Presently he report of the boat howitzer was heard, followed by several guns fired in quick suc-cession, and soon the tug returned, saying she had been fired upon from both sides of the river. Previous to leaving the locality the tug had opened upon the enemy with her howitzer and driven from the river bank the enemy's pickets. Gol. Fitch then ordered his men back upon the hoat and waited till the morning of the 17th.

About 6 o'clock the Mound City, the Hag ship, the Musselman and New National with the troops, then the St. Louis, Lexington and Conestoga ran up until they came within sight of the bluffs in the bend, half a mile ahead, and the Mound City opened fire. The troops were landed and the other gunboats passed on slowly up the river until-within range of the batteries when they poured in a destructive fire upon the rebels, to which they made no reply. In the mean-time Col. Fitch had landed his treeps, about 500 men, formed then; into line and started them forward on the double quick, intend ing to attack the fort in the rear. Soon in in that direction was heard the volleys of musketry, sharp and continuous, indicating that warm work was in progress.

Presently Col. Fitch who led his regiment in person, sent word to the gunboats that the enemy's pickets were driven in, and ad-vised an advance to engage the batteries at thort range. The steamer Musselman was ordered to advance to the bend, but the shot shid shell commenced to fall thickly and she retired in obedience to Col. Fitch's request. The ganboats advanced a short distance when a battery stationed on the bluff above them on the south side of the river, opened fire. It was afterwards ascer-tained that this battery consisted of four small gans—two brass six-pounders and two rifled Parrot's. The intention of a part of the rebels was to create the impression that this was the strength of the whole rebel fortifications, as though within easy range the remaining guns maintained obdurate silence. The gun boats advanced steadily up the stream until they came to the bend of the river opposite the middle of the bluff where the enemy had that morning sunk three transports and a gunboat with the expectation of obstructing the passage of our fleet. While sinking one of the transports, it had floated with the current so as to leave just space enough for the gunboats to pass, if necessary, before reaching the obstructions.

While advancing slowly, the rebels opened a destructive fire from two rifled 42; pounders on the fleet, to which the four-gunboats replied vigorously for a half hour. It was at this moment that the great catastrophe occurred. An unlucky shot from one of the heavy guns on the bill came plunging down. on the larboard quarter, forward ahead of the iron plates, and cut its way through the the iron plates, and cut its way inrough the neary timber as if it was an inch board, and struck the steam drum, passed through is and the heater, and brought up in the pantry, where its progress was stayed. Then followed a scene which beggars description. The decks were crowded with nearly 200 The decks were crowded with nearly 200 men, and as the hot scalding steam was thrown with tremendous force between the decks a terrible cry of agony arose, which my informant says, will ring in his ears to all eternity. Out of 180 men twenty five are all that escaped injury. Every officer but one was scalded or killed outright. He was on the upper deck, and out of reach of the steam. He was first master C. Dominy of Peoria

Capt. Kilty was in the pilot house, and was badly scalded about the face, hands and feet, but is expected to recover. Several jumped overboard, and the yawls of the other gunbonts quickly went to their assistance. At this juncture Col. Fry, the inhuman devil incarnate commanding the rebel fortifications, ordered his sharpshooters to pick off the poor sailors swimming in the water, and for some time kept firing at them with his large guns. A shot passed through the Conestoga's launch, but fortu-nately killed no one. Many of our men were killed in the water, and several drown-

Col. Fry is said to be an ex-lieutenant of

the federal navy.

By this time firing had ceased, and the Lexington towed the disabled Mound City into the hend. The tog came to the transports for surgeons and assistance for the calded. The sufferers were all stripped, the skin coming off in large flakes with their clothing, and all turned to render assistance so imperatively demanded. One of the men, who was dying on the gun deck, by men, who was dying on the gun decu, by some means caught hold of the rope by which the cap on the gun exploded, and in the externity of his agony discharged the larboard bow gun, a very large one, and the shot passed through the engine of the New National, forward of the wheel, cutting off a steam pipe of the larboard engine and se-

verely scalding the engineer. At this time news came from Col. Fitch that he had taken the fort; also that Col. Fry, the rebel commander, was badly vounded in the shoulder.

Col. Fitch did not loose a man of his command. The General J. C. Hindman, captured

by Col. Fitch, was a member of congress from Arkansas, with the colonel. It was Hindman who passed the no quarter order. at Little Rock, and who had the siprited discussion thereon with Col. J. R. Curtis. then at Batesville. Information reached here at eight o'clock

last evening by the Union, now Lancaster No. 3, that it was feared Col. Fitch, with his 500 men, would not be able to hold his position at St. Charles, as a large body of rebels were in the vicinity and preparing to attack him. Gen. Curtis is supposed to be at Batesville.

"Doty's Address Printers"

This is the name of the new mailing ma chine invented by Wm. M. Doty, formerly of this city, which we have heretofore noticed. For some time past we have used one of his earliest inventions, and have since tested his improvements upon it. It is simple in its construction, prints directly on the paper by an impression from above, will wear for years without repairs, and when repairs are needed any good mechanic can make them. The ease and facility with which it is used are such that any boy about a printing office can work it, and its accuracy is beyond a contingency. This feature in it will be better appreciated when we state the fact that some of the leading papers in the north have substituted it for other machines which cost a much larger price, and that wherever it is exhibited it Reison, two doors above the. Central Bank, receives instant and unqualified approval.

A very valuable quality of this machine with equal clearness and rapidity any sized type from nonparell to great primer, and a very simple arrangement gives notice when a package is finished, when a wrapper can be slipped in and printed, or the simple address on colored paper can be worked and transferred to the wrapper. From our knowledge of this and other

machines, we give it our unqualified prefer ence and confidently recommend it to news paper offices. The price is \$20, without any charges for its use according to circulation, as is the practice with some other machines. Mr. Ellis Dorr, of this city, a brother of the inventor, is the general agent for the sale of the machines, and will furnish them, or answer any inquiries made to him. Circulars containing a full descrip tion of the invention will soon be printed and distributed. DAUTION.

In the meantime, printers will do well to be on their guard against any machine of a similar character which may be offered. We understand that some person is now offering for sale in the west, and perhaps the same thing will be attempted elsewhere, one, which in almost every respect infringes on the patent of Mr. Doty, but is an inferior article. Mr. Doty ought, by all means, infringements.

A NEAT RAILBOAD TRAIN .- On our re-

turn, last Saturday, from the editorial convention we had the good fortune to enjoy the first trip of a new train prepared for GRAIN AND PRODUCE DEALERS. George Reddington, one of the conductors on the Milwaukce and Prairie du Chien railway. The train had just been brought from the shops of the company, and was in as neat and trim a condition as good taste and good work could make it. One of the conveniences connected with it is a smoking car, cushioned and in every way prepared for the comfort of those who feel disposed to resort to it. George may well feel proud of such an establishment as he conducts, and passengers , who fall into his care may | ear. deem themselves truly fortunate.

A GOOD APPOINTMENT. - We are gratified to learn that Gen. H. C. Bull, formerly of this city, has been appointed paymaster in the army, with the rank and pay of a major. "The General" has well carned his position by active service in the field, and he has a host of friends who will rejoice in his promotion. He commanded, it will be remembered, a company of Iowa volunteers at the battle of Pea Ridge, and was wounded there. A man who has borne the reverses of fortune us he has, will not be likely to abuse the position he has now acquired.

Tax List .- This interesting document greets our readers again to-day, and some of our advertisers are compelled to stand aside to make room for it, while our reading matter comes on the outside. ' To-morrow we shall get back to the old arrange-

#### "Doty's Address Printer."

This is the name of the new mailing machine invented by Wm. M. Doty, formerly of this city, which we have heretofore noticed. For some time past we have used one of his earliest inventions, and have since tested his improvements upon it. It is simple in its construction, prints directly on the paper by an impression from above, will wear for years without repairs, and when repairs are needed any good mechanic can make them. The ease and facility with which it is used are such that any boy about a printing office can work it, and its accuracy is beyond a contingency. This feature in it will be better appreciated when we state the fact that some of the leading papers in the north have substituted it for other machines which cost a much larger price, and that wherever it is exhibited it Reison, two doors above the Central Bank, receives instant and unqualified approval.

A very valuable quality of this machine is, that it is so constructed that it prints lies for preserving. Orders for festivals with equal clearness and rapidity any sized type from nonpareil to great primer, and a very simple arrangement gives notice when a package is finished, when a wrapper can be slipped in and printed, or the simple address on colored paper can be worked and transferred to the wrapper. From our knowledge of this and other

machines, we give it our unqualified preference and confidently recommend it to newspaper offices. The price is \$20, without any charges for its use according to circulation, as is the practice with some other machines. Mr. ELLIS DOTY, of this city, a brother of the inventor, is the general agent for the sale of the machines, and will fornish them, or answer any inquiries made to him. Circulars containing a full descrip tion of the invention will soon be printed and distributed.

#### CAÚTION.

In the meantime, printers will do well to be on their guard against any machine of a similar character which may be offered. We understand that some person is now offering for sale in the west, and perhaps the same thing will be attempted elsewhere, one which in almost every respect infringes on the patent of Mr. Doty, but is an inferior article. Mr. Doty ought, by all means, to reap the reward of his ingenuity, and has secured a patent which he will fully protect to all purchasers and prosecute all four months at Richmond, three months at intringements.

## High School Exhibition.

The closing exercises of the annual term of the high school will be such an exhibition by the pupils as has heretofore been given. This exhibition will take place at Lappin's Hall next Friday evening. A more detailed announcement will be made by the board of education. A NEAT RAILROAD TRAIN .-- On our re

turn, last Saturday, from the editorial convention we had the good fortune to enjoy the first trip of a new train prepared for George Reddington, one of the conductors on the Milwaukee and Prairie du Chien railway. The train had just been brought from the shops of the company, and was in Ing in; prices ruled firm at 72@75c for milling samples as neat and trim a condition as good taste and 82@70c for shipping. Coarse grains remain firm and good work could make it. One of the conveniences connected with it is a smoking car, cushioned and in every way prepared for the comfort of those who feel disposed to resort to it. George may well feel proudof such an establishment as he conducts, and passengers who fall into his care may deem themselves truly fortunate.

A GOOD APPOINTMENT.—We are gratified to learn that Gen. H. C. Bull, formerly of this city, has been appointed paymaster in the army, with the rank and pay of a major. "The General" has well earned his position by active service in the field, and he has a host of friends who will rejoice in his promotion. He commanded, it will be remembered, a company of Iowa volunteers at the battle of Pea Ridge, and was wounded there. A man who has borne the reverses of fortune as he has, will not be likely to abuse the position he has now acquired.

Tax List,-This interesting documen greets our readers again to day, and some of our advertigers are compelled to stand aside to make room for it, while our reading matter comes on the outside. To-morrow we shall get back to the old arrange-

DR. PALMER.-We learn that Brigade Surgeon Palmer, of this city, is at Yorktown, superintending the erection of barrack hospitals, and that he expects soon to be engaged in the same service at Annap-

LARGE STRAWBERRIES .- The largest and finest collection of strawberries we have ever seen have been left at our office by Caarles Bowerman of the town of Harmony. One bunch of four on a single stem weighed 13 ounces. They are Wilson seedling, the vines transplanted last August.

The Ladies Hospital Relief Society will meet at Mrs. Wm. Burroughs, Frank. lin street, on Wednesday, June 25th, from 12 to 52 o'clock P. M.

MARIA F. CLARK, Sec. MILITARY ITEMS .- Commissions have

been issued to Dr. E. J. Farr as state assistant surgeon of the 3d regiment, vice Consut promoted. To Dr. L. J. Brainard of Waupaces a

1st assistant surgeon of the 7th regiment, vice Cramer promoted.

JULY ATLASTIC .- Dearborn has received the Atlantic Monthly for July.

A dispatch in the Augusta, Ga., papers, of the 16th, says that a severe battle took place at Charleston, South Carolina, on that day. According to the rebel acgreat slaughter. But the confederate telegram says that the contest was to be renewed, and that their troops are very much "exhausted." Information has been received by

Corinth. The 46th Indiana regiment covered themselves with glory in the battle of St. Charles, Ark., where they went into the fight with but 400 men and a limited amount of ammunition. They did not need it however, as they carried the rebel battery at the point of the bayonet, capturing more than their own numbers of confederates besides a formidable battery of brass and iron rified cannon,

Capt. Britton's family that he is quite sick at the camp of the Sth regiment, south of

SABBATH SCHOOL EXCURSION .- The Sabbath School connected with the First Baptist Church purpose having an excursion to Rockford on Thursday of next week.

The Fourth Wisconsin regiment is with Commodore Farragut, below Vicks. burg, this brigade being under the command of Gen. Williams.

STEAMBERRIES .- This delicious fruit is now very abundant in our market. R. T. has some very fine varieties, very cheap, and in such quartities as to provide famiwill also be filled.

Ben. Butler's order relative to indelicate females (attracting the attention of our soldiers by unlady-like acts and gestures) has had a salutary effect. The soldiers in New Orleans are no longer insulted by the fair termagants. GUERRILLAS.-The Louisville Journal

ays the guerrillas are becoming exceeding. y troublesome in some of the lower counies of Kentucky, committing all sorts of outrages, and keeping the people in a con stant state of alarm. The Common Council of the city of New Orleans, has, at Gen. Butler's suggestion,

employed 2,000 laborers (who have families in cleaning the streets of that city. This is a wise and sanitary provision. OVERRULED .- The New York board of aldermen, on Monday evening, overruled by a two-thirds vote the veto of Mayor Opdyke on the resolution tendering a public recep

tion to Mr. Thurlow Weed. The wheat crop in Northern Alabama and Southern Tennessee was almost destroyed by rust. The corn crop in the same sections is suffering for want of rain, and promises badly.

Geo. A. Beck, who was taken prisoner at the battle of Bull Run, and has lately been liberated on parole, is now in this city. B. was a prisoner ten months, spending Tuscaloosa, and three months at Salisbury, North Carolina. He was wounded in the leg, and brings home with him the ball that was taken from the wound seventeen days after the battle. He represents the treatment the prisoners received as being very hard. His bealth is now good. He was a member of the Randall Guard, in the 2d regiment .- Madison Journal.

The want of an authentic and thorough History of
the Rebation, for present reference and fixture preservation, is the subject of general remark. No work of
that nature has yet been offered to the public, and all
who wish for information are compelled to grope through
the maxes of the rumors, reports, dispatches, lecture and
editorlals of the daily newspapers, to precipited, from
its confused columns, the great facts and incidents of
the struggle for the Upion.

To meet this want, and to produce a work of permanext value as well as a freest interest, the publisher
has arranged for the lessue of the listory as above
set forth—in a form and at a price which shall render
it acceptable to all.

Each gurranty must be accompanied by the certificate of a judge of a court of record, or clerk of such court, certifying under his cath of office, and of his own knowledge, to the ability of the garrantors: STATE OF WISCONSIN, Ss.

as arranged for the state of the history as above set forth—in a form and at a price which shall render it acceptable to all.

This history will tell the Stuay as It 18, giving a clear, consecutive narrative of the entire movement, including all the jacidants and events in their exact order, and containing the important documents and extracts from remarkable speeches. It will not be a mere diarry, nor a mere summeration of dry and paked datas, nor a compilation of elios from newsjapors, but will portray in connected and interestingnarrative, thereby distinanty steps, as well as the measures of the government.

It will carefully digest all evidence—will sift all rumors and reports—will fix upon facts, and correct so far as possible the errors and discrepancies incident to the hasky payratives of the newspapers.

It will be written in a style spited to its thome—at once graphic, earness and liminions, introducing such personal and social incidents as may serye to show the relations of individuals and communities to the grand events of the time.

The person or persons whose bid shall be accepted will be required within ton (10) days after the award of the contract to make and enter into an obligation, with good and split, ont superles, in the sum of thirty thousand dollars (\$30,000), to perform the 'o'r-lee required as set forth in this silvertisement, and according to law. The contract will require that all orders for printing, (lut the English language,) binding or materials, made through the Secretary of state, be executed prompily; and all printing required by general statut, be completed and delivered within the time required by the statute directing such printing. There will be expressly reserved in the contract the right of face, or which may harmare pe charted, directing any particular kind or quantity of firiting; and the contract will be distinctly set forth. that it does not give to the contractor any intere the or contract over; the publication of the laws in a newspaper at the capital, or of any official notice, advertisement or communication of upy kind, directed by chapter 240 of the General Lawsof 1860, to be published in the "Official State Paper" therein issued.

But Apper Therein issued.

Dated at Madison, Wisconsin, this 4th day of June, A. D. 1862. It is true, everybody reads the newspapers, but the reports of the newspapers are the fragmentary, and contradictory children of the noment, and not a correct, connected and complete history. The above mobilication, afterwards bound in a handsome volume, will see a book for the family, which will be valued like the records of the Upr of Independence, or the Life of Washington, and worthy to be kept for children and grand-children, as a memorial of the present time. It will thus prove degirable, syntiac, expression, and the uproduction, every family, every effice, every library; and is given to the public in the full assurance that it will command the approhetion of every patriot, every Union man, every good citizen in our still Giorlous Land.
